exposed

adj. having no protection or shield from something, such as bad weather, attack, or criticism

synonym: endangered, revealed, disclosed

(1) **exposed** to radiation, (2) an **exposed** rock

Tech companies often employ **exposed** ducts and other materials in their office interiors.

Session 2: Spelling

1. sh____sh allergy

2. me____ly endorsed method

3. gl n intolerance

4. a strain of vi s

5. an int____nt person

6. nu d view

7. prevent diaper r h

8. di t information

9. a first-aid k t

 water creatures that live in shells, especially one of the types that can be eaten

adv. in a way that relates to the practice of medicine and the treatment of illness and injury

 a protein found in wheat, barley, and rye that is responsible for the elastic texture of the dough

 a tiny infectious organic material that causes disease in people, animals, and plants

adj. the inability or refusal to accept or respect views, beliefs, or behavior that differ from someone's own; unable to eat food without adverse effects

adj. characterized by subtle differences in appearance, meaning, sound, etc.

any red spot of the skin, caused by a disease or reaction to something;
 (adjective) marked by defiance and not caring about risk or consequences

v. to transform food into absorbable substances; break down

n. a set of tools, supplies, or equipment for a particular purpose

ANSWERS: 1. shellfish, 2. medically, 3. gluten, 4. virus, 5. intolerant, 6. nuanced, 7. rash, 8. digest, 9. kit

10. blt with pride	v.	to become swollen, distended, or inflated, especially in an unpleasant way; (noun) a condition in which the abdomen becomes swollen or distended with gas or fluid
11. pet butter	n.	a type of legume that grows underground and is widely cultivated and consumed as a food source
12. dise with CT scans	v.	to determine or distinguish the nature of a problem or an illness through a careful analysis
13. help dit food	v.	to transform food into absorbable substances; break down
14. honeybees in hes	n.	a structure for the reception and habitation of bees, either built by people or made by the bees themselves; a place swarming people
15. an exd rock	adj.	having no protection or shield from something, such as bad weather, attack, or criticism
16. notable ince	n.	a particular example or single occurrence of something
17. the cell of the ime syste	em <i>adj</i> .	protected against a particular disease or toxin due to the presence of specific antibodies or sensitized white blood cells
18. trnt by diet	n.	the way in which someone deals with or behaves towards someone or something; medical care provided to a patient for an injury or illness.

ANSWERS: 10. bloat, 11. peanut, 12. diagnose, 13. digest, 14. hive, 15. exposed, 16. instance, 17. immune, 18. treatment

19. cec treatment	n.	relating to a condition in which the body's immune system reacts to gluten, a protein found in wheat, barley, and rye; of or in or belonging to the cavity of the abdomen
20. a he of activity	n.	a structure for the reception and habitation of bees, either built by people or made by the bees themselves; a place swarming people
21. cardiac troin	n.	a protein that regulates the contraction of muscle fibers by blocking the action of the enzyme myosin
22. ine his privacy	ν.	to enter aggressively into another's territory by military force for conquest and occupation
23. survival k_t	n.	a set of tools, supplies, or equipment for a particular purpose
24. inne wall	n.	a long, tube-like organ in the digestive system that is responsible for absorbing nutrients from food and eliminating waste products
25. envnt affairs	n.	the natural world such as air, water, and land in which humans, animals, and plants live
26. alic to pollen	adj.	having or caused by an allergy
27. a southern exre	n.	the state of being in a particular situation or place where there is no protection from or guarantee to something harmful; the disclosure of something secret

ANSWERS: 19. celiac, 20. hive, 21. tropomyosin, 22. invade, 23. kit, 24. intestine, 25. environment, 26. allergic, 27. exposure

28.	imported day product	n.	a room, building, or establishment where milk and milk products are produced and processed; milk and milk products, such as butter and cheese
29.	blt government spending	v.	to become swollen, distended, or inflated, especially in an unpleasant way; (noun) a condition in which the abdomen becomes swollen or distended with gas or fluid
30.	d_m-building program	n.	a wall constructed over a river to block the flow of water, mainly used to generate energy
31.	edible shsh	n.	water creatures that live in shells, especially one of the types that can be eaten
32.	dise the problem	ν.	to determine or distinguish the nature of a problem or an illness through a careful analysis
33.	investigate scilly	adv.	in a way that relates to science or is connected with science
34.	lae degradation	n.	a sugar that is present in milk and milk products and is the primary source of energy for newborns
35.	rend reading	<i>v</i> .	to suggest that someone or something would be a suitable fit for a particular purpose or role
36.	low-fat day	n.	a room, building, or establishment where milk and milk products are produced and processed; milk and milk products, such as butter and cheese

ANSWERS: 28. dairy, 29. bloat, 30. dam, 31. shellfish, 32. diagnose, 33. scientifically, 34. lactose, 35. recommend, 36. dairy

37.	tie with anticipation	ν.	to cause a stinging or prickling sensation; (noun) a feeling of slight numbness or a slight prickling or stinging sensation, typically as a result of cold or excitement
38.	with unpnt body odor	adj.	not enjoyable or comfortable
39.	ime from criminal prosecution	adj.	protected against a particular disease or toxin due to the presence of specific antibodies or sensitized white blood cells
40.	gln-free diets	n.	a protein found in wheat, barley, and rye that is responsible for the elastic texture of the dough
41.	see heat	adj.	extremely serious or bad in feeling, manner, or strict and harsh; extremely strong or vigorous
42.	stress prn	n.	a molecule made up of a long chain of amino acids, which is essential for the structure and function of the body's tissues
43.	with an empty bey	n.	the front part of the body below the chest, containing the stomach and bowels; the rounded or curved part of an object, such as a ship or aircraft
44.	then national security	<i>v</i> .	to utter intentions of injury or punishment against someone
45.	spread of the vis	n.	a tiny infectious organic material that causes disease in people, animals, and plants

ANSWERS: 37. tingle, 38. unpleasant, 39. immune, 40. gluten, 41. severe, 42. protein, 43. belly, 44. threaten, 45. virus

46.	cause dis	ate damage	adj.	too large or too small when compared with something else, or not deserving its importance or influence
47.	insulin aut	_ne syndrome	adj.	relating to a condition in which the body's immune system attacks and destroys healthy body tissue, mistaking it for harmful foreign substances
48.	large inr	ne	n.	a long, tube-like organ in the digestive system that is responsible for absorbing nutrients from food and eliminating waste products
49.	trigger a re	_on	n.	a response that reveals a person's feelings or attitude; (in chemistry) a process in which one or more substances are changed into others
50.	the main pu	_t of his speech	ν.	to claim or suggest that something is true or has a particular character or quality; (noun) the intended meaning of a communication
51.	a dive e	nzyme	adj.	relating to or capable of causing or promoting digestion of food
52.	then a he	althy relationship	<i>v</i> .	to utter intentions of injury or punishment against someone
53.	in a mel	y effective manner	adv.	in a way that relates to the practice of medicine and the treatment of illness and injury
54.	guarantee re	le delivery	adj.	worthy of being relied on; trustworthy
55.	peve a th	reat	ν.	to become aware or conscious of something through the senses

ANSWERS: 46. disproportionate, 47. autoimmune, 48. intestine, 49. reaction, 50. purport, 51. digestive, 52. threaten, 53. medically, 54. reliable, 55. perceive

56.	trr a biochemical response	<i>v</i> .	to make something happen suddenly; to cause something such as a device, machine, etc. to function
57.	unI condition	adj.	not in good health; feeling ill or sick
58.	diea-related dehydration	n.	a common digestive disorder with the frequent passage of loose, watery stools that can be caused by various factors such as infections, food poisoning, and certain medications
59.	the common but nud opinion	adj.	characterized by subtle differences in appearance, meaning, sound, etc.
60.	disate amount	adj.	too large or too small when compared with something else, or not deserving its importance or influence
61.	trr inflation	ν.	to make something happen suddenly; to cause something such as a device, machine, etc. to function
62.	alic children	adj.	having or caused by an allergy
63.	pale energy	n.	a small piece of something; a word or piece of a term with grammatical function but little or no significance
64.	chaotic envnt	n.	the natural world such as air, water, and land in which humans, animals, and plants live
65.	coe fantasy with reality	ν.	to mistake one thing for another; to make somebody hard to understand
66.	peve light	<i>v</i> .	to become aware or conscious of something through the senses

ANSWERS: 56. trigger, 57. unwell, 58. diarrhea, 59. nuanced, 60. disproportionate, 61. trigger, 62. allergic, 63. particle, 64. environment, 65. confuse, 66. perceive

67.	autne disorder	adj.	relating to a condition in which the body's immune system attacks and destroys healthy body tissue, mistaking it for harmful foreign substances
68.	rend a hospitalization	ν.	to suggest that someone or something would be a suitable fit for a particular purpose or role
69.	inaate content	adj.	not suitable or proper for a particular situation or occasion
70.	food aly	n.	a hypersensitivity disorder of the immune system, characterized by an exaggerated response to certain allergens, such as pollens, foods, and drugs
71.	the exre of a fraud	n.	the state of being in a particular situation or place where there is no protection from or guarantee to something harmful; the disclosure of something secret
72.	neurotic syms	n.	any sensation or change in body or mind that is experienced by a patient and is associated with a particular disease
73.	rele access	adj.	worthy of being relied on; trustworthy
74.	intnt of criticism	adj.	the inability or refusal to accept or respect views, beliefs, or behavior that differ from someone's own; unable to eat food without adverse effects
75.	put to answer the question	ν.	to claim or suggest that something is true or has a particular character or quality; (noun) the intended meaning of a communication

ANSWERS: 67. autoimmune, 68. recommend, 69. inappropriate, 70. allergy, 71. exposure, 72. symptom, 73. reliable, 74. intolerant, 75. purport

76.	feel generally unI	adj.	not in good health; feeling ill or sick
77.	coe the listener	<i>v</i> .	to mistake one thing for another; to make somebody hard to understand
78.	the d_n of the university	n.	a Spanish gentleman; a university lecturer, especially a senior member of a college at Oxford or Cambridge
79.	senty analysis	n.	the ability to perceive or respond to subtle differences or changes; the ability to understand and respond to the needs and feelings of others
80.	aly treatment	n.	a hypersensitivity disorder of the immune system, characterized by an exaggerated response to certain allergens, such as pollens, foods, and drugs
81.	a see case of pneumonia	adj.	extremely serious or bad in feeling, manner, or strict and harsh; extremely strong or vigorous
82.	develop a rh	n.	any red spot of the skin, caused by a disease or reaction to something; (adjective) marked by defiance and not caring about risk or consequences
83.	ine other tissues	<i>v</i> .	to enter aggressively into another's territory by military force for conquest and occupation
84.	cec artery	n.	relating to a condition in which the body's immune system reacts to gluten, a protein found in wheat, barley, and rye; of or in or belonging to the cavity of the abdomen

ANSWERS: 76. unwell, 77. confuse, 78. Don, 79. sensitivity, 80. allergy, 81. severe, 82. rash, 83. invade, 84. celiac

85.	D_n Giovanni	n.	a Spanish gentleman; a university lecturer, especially a senior member of a college at Oxford or Cambridge
86.	troin administration	n.	a protein that regulates the contraction of muscle fibers by blocking the action of the enzyme myosin
87.	the bey of the ship	n.	the front part of the body below the chest, containing the stomach and bowels; the rounded or curved part of an object, such as a ship or aircraft
88.	charged pale	n.	a small piece of something; a word or piece of a term with grammatical function but little or no significance
89.	lack of digestive enes	n.	a substance produced by a living organism that acts as a catalyst to bring about a specific biochemical reaction
90.	lae intolerance	n.	a sugar that is present in milk and milk products and is the primary source of energy for newborns
91.	exd to radiation	adj.	having no protection or shield from something, such as bad weather, attack, or criticism
92.	for ince	n.	a particular example or single occurrence of something
93.	inaate behavior	adj.	not suitable or proper for a particular situation or occasion
94.	unpnt behavior	adj.	not enjoyable or comfortable
95.	first-aid trnt	n.	the way in which someone deals with or behaves towards someone or something; medical care provided to a patient for an injury or illness.

ANSWERS: 85. Don, 86. tropomyosin, 87. belly, 88. particle, 89. enzyme, 90. lactose, 91. exposed, 92. instance, 93. inappropriate, 94. unpleasant, 95. treatment

96. chemical reon	n.	a response that reveals a person's feelings or attitude; (in chemistry) a process in which one or more substances are changed into others
97. become full of senty	n.	the ability to perceive or respond to subtle differences or changes; the ability to understand and respond to the needs and feelings of others
98. ene reaction	n.	a substance produced by a living organism that acts as a catalyst to bring about a specific biochemical reaction
99. tie up my spine	v.	to cause a stinging or prickling sensation; (noun) a feeling of slight numbness or a slight prickling or stinging sensation, typically as a result of cold or excitement
100. scilly explainable	adv.	in a way that relates to science or is connected with science
101. prn synthesis	n.	a molecule made up of a long chain of amino acids, which is essential for the structure and function of the body's tissues
102. the seed of a pet	n.	a type of legume that grows underground and is widely cultivated and consumed as a food source
103. d_m collapsing	n.	a wall constructed over a river to block the flow of water, mainly used to generate energy
104. syms of low testosterone	n.	any sensation or change in body or mind that is experienced by a patient and is associated with a particular disease

ANSWERS: 96. reaction, 97. sensitivity, 98. enzyme, 99. tingle, 100. scientifically, 101. protein, 102. peanut, 103. dam, 104. symptom

- 105. di____ea with abdominal pain

 106. di____ve juices
- n. a common digestive disorder with the frequent passage of loose, watery stools that can be caused by various factors such as infections, food poisoning, and certain medications
- adj. relating to or capable of causing or promoting digestion of food

ANSWERS: 105. diarrhea, 106. digestive

Session 3: Fill in the Blanks

1.	This big gate is to the small hut.
adj	too large or too small when compared with something else, or not deserving its importance or influence
2.	A decade ago, it was impossible to cure this disease completely.
adv	in a way that relates to the practice of medicine and the treatment of illness and injury
3.	metabolism differs between individuals.
n.	a sugar that is present in milk and milk products and is the primary source of energy for newborns
