Session 1: Word List

magnificence	 n. the quality or state of being extremely good, beautiful, or deserving to be admired synonym: grandeur, splendor, elegance
	(1) incomparable magnificence , (2) the magnificence of classical music
	The magnificence of the palace was breathtaking.
alpine	 adj. relating to or characteristic of high mountains, especially the Alps; of or relating to cold, snowy, or rugged terrain synonym: mountain, highland, elevated
	(1) alpine region, (2) alpine plant
	We went on an exhilarating alpine adventure, climbing steep mountain slopes and glaciers.
smudge	 n. a blurry or dirty mark or stain left by rubbing or smearing something; also, a bundle of material, such as sage or incense, that is burned to produce smoke for purification or ritual purposes synonym: blemish, mark, stain
	(1) ink smudge , (2) lipstick smudge
	She accidentally left a smudge on the newly painted wall.

rev	 <i>n</i>. a measure of the rate at which an engine or motor rotates, often expressed in revolutions per minute (RPM); (verb) to increase the number of rotations per minute <i>synonym</i>: revolution, RPM, speed
	(1) low- rev engine, (2) rev up the crowd
	He stepped on the gas pedal, and the engine released a loud rev .
grapple	 v. to make a strenuous effort to solve a problem; to engage in a close fight or conflict without weapons synonym: brawl, scuffle, wrestle
	(1) grapple with problem, (2) grapple with each otherHe needed to grapple with structural reforms to improve the company's revenue.
beetle	<i>n.</i> an insect having a hard shell-like back covering its wings
	(1) beetle brows, (2) a beetle larva
	In ancient civilizations, the scarab beetle was worshiped as a sacred creature.
primate	 <i>n.</i> any mammal of the order Primates, which includes monkeys, apes, and humans <i>synonym</i>: ape, monkey, lemur
	(1) primate species, (2) primate sanctuary
	Many scientists study primate behavior and intelligence.
timescale	 n. a period or interval of time, particularly one used as a standard for measuring or comparing other periods of time; a reference point or benchmark for the duration or length of a particular event or process synonym: time frame, schedule, duration
	(1) long- timescale, (2) realistic timescale
	The timescale for completing the construction project is three years.

 n. the act or process of separating and moving in different directions; a difference or variance between two or more things or ideas; a deviation from a common or shared path or goal synonym: divergency, deviation, discrepancy
(1) divergence angle, (2) ideological divergence
The divergence in opinions among the team members led to a delay in completing the project.
 <i>n</i>. a small, very intelligent ape found in west and central Africa with black or brown fur <i>synonym</i>: ape, chimp, pan troglodytes
(1) chimpanzee behavior, (2) chimpanzee society
Many zoos have chimpanzee exhibits, allowing visitors to observe these intelligent primates up close.
 n. a sphere or ball-shaped object, often referring to celestial bodies such as planets or stars synonym: globe, sphere, ball
(1) orb of light, (2) crystal orb
The planet Venus appeared as a bright orb in the sky during the night.
 <i>n.</i> a thin wire or thread, especially one used to produce light in an electric bulb <i>synonym</i>: fiber, thread, filament
(1) filament lamp, (2) carbon filament
The filament in the light bulb burned out, and now it's not working.
n. a small drop of liquid synonym: bead, drip, dewdrop
(1) droplet size, (2) droplet formation
A single droplet of water can reflect the entire world upside down.

spigot	 a valve or faucet used to control the flow of liquid from a container or pipe
	synonym: faucet, tap, valve
	(1) shut off the spigot , (2) open the spigot
	The spigot on the outdoor faucet was leaking and needed to be fixed.
sac	 n. a bag or pouch, typically made of fabric or leather, used to hold something valuable or important; a structure resembling a bag in an animal or plant synonym: bag, pouch, knapsack
	(1) sac contents, (2) abdominal sac
	I placed my valuables in the sac before heading out on my hike.
opportune	<i>adj.</i> suitable or happening at a time that is suitable or convenient for a particular purpose<i>synonym</i>: suitable, timely, practical
	(1) opportune occasion, (2) an opportune remark
	The phone rang at the most opportune time.
dissect	 v. to cut into pieces to study the structure of something in detail
	synonym: analyze, examine, study
	(1) dissect the data, (2) dissect a personality
	The scientist dissected the frog to study its internal organs.
weave	 v. to make cloth, a carpet, a basket, etc., by repeatedly crossing a single thread through two sets of long threads at a right angle to them synonym: braid, unite, contrive
	(1) weave on a loom, (2) weave a story
	The girl weaves a garland for her friend.
bounty	<i>n.</i> a reward offered for capturing or killing someone or for accomplishing a specific task
	synonym: reward, premium, recompense

	(1) cash bounty, (2) a bounty on exportsThe bounty hunter was hired to capture the notorious criminal and bring him to justice.
translucent	<i>adj.</i> allowing light to pass through but scattering it so that objects behind cannot be seen clearly; partially transparent
	synonym: semi-transparent, see-through
	(1) translucent glass, (2) translucent skin
	The sunlight shone through the translucent curtains, casting a warm glow in the room.
depict	<i>v.</i> to illustrate someone or something in a photograph <i>synonym</i> : illustrate, describe, express
	(1) depict a scene, (2) depict a feeling of isolation
	His son had accurately depicted the bloom.
flagellum	 n. (plural, flagella) a long, thin, whip-like structure that some cells use for movement synonym: cilia, whip, appendage
	(1) flagellum structure, (2) bacterial flagellum
	The flagellum of the sperm cells help it to move towards the
	egg.
acinus	 n. a small, rounded sac or cavity found in the body, particularly in glands and organs, such as the respiratory system or the exocrine glands, where it is involved in the production and secretion of substances synonym: alveolus, air sac, sacculus
	(1) acinus of pancreas, (2) alveolar acinus
	Each acinus in the salivary gland produces and secretes saliva.
ampulla	<i>n</i> . a small, rounded, or flask-shaped container or cavity in the body, often used to refer to specific structures or parts of the anatomy, such as the dilated portion of a fallopian tube or a structure in the digestive system

synonym: bulb, sac, vesicle	synonym :	bulb,	sac,	vesicle
-----------------------------	-----------	-------	------	---------

(*	1) ampulla of vater, (2) ampulla of the fallopian tube
Т	he physician carefully inserted a catheter into the patient's
а	mpulla to drain excess fluid.
n.	a person from whom one is descended; a forefather

ancestorn. a person from whom one is descended; a forefather
synonym: forebear, forefather, progenitor(1) ancestor language, (2) earliest human ancestor
My remote ancestor immigrated to the United States from
Ireland in the 1800s.

divergev.to move or extend in different directions from a common
point; to branch off or deviate from a path or coursesynonym:separate, split, part

(1) diverge from tradition, (2) diverge from the main topic
 As tectonic plates diverge, new oceanic crust is formed along mid-ocean ridges.

outlandishadj.bizarre, strange, or unconventional in appearance,
behavior, or thought, often in a way that is seen as
foreign or exotic; unusual or strikingly different from what
is expected or normal

synonym: eccentric, bizarre, strange

(1) outlandish proposal, (2) outlandish behaviorThe outlandish outfit drew the attention of everyone in the room.

glycinen.an amino acid, often represented by the symbol "G," that
is an essential building block of proteins and is involved
in various biological processes in living organisms
synonym: glycogenic amino acid

(1) glycine supplement, (2) glycine metabolismThe protein contained a high glycine content, making it vital for specific metabolic reactions.

phenylalaninen.an essential amino acid that plays a crucial role in
protein synthesis and various other physiological

	processes in the human body but can be dangerous in excessive amounts for people with phenylketonuria (PKU)
	synonym: amino acid, Phe
	(1) phenylalanine deficiency, (2) phenylalanine hydroxylase
	Certain soft drinks and sugar-free products have warning label about their phenylalanine content.
abbreviation	 n. a shortened form of a word or phrase used to represent the whole, typically for ease of use synonym: short form, acronym, initialism
	(1) currency abbreviation , (2) abbreviation of the full name
	In the medical field, service abbreviation refers to medical procedures, diagnoses, and medications.
diversification	 n. the act of expanding a business or portfolio by adding new products, services, or investments to reduce risk and increase profitability
	synonym: variety, heterogeneity, assortment
	(1) business diversification , (2) diversification of products
	The company's diversification strategy helped them weather
	the economic downturn.
serine	 n. a hydrophilic amino acid that acts as a neurotransmitter and is found in many proteins synonym: amino acid
	(1) serine protease, (2) receptor serine
	The high serine levels in the blood were an indicator of liver
	disease.
quants	 n. quantitative analysts or individuals who specialize in using quantitative methods, including mathematical and statistical modeling, in analyzing financial markets and making investment decisions
	synonym: quantitative analysts, number crunchers, data scientists
	(1) the team of quants , (2) industry quants

	Many financial quants work in investment banks, using complex mathematical models to analyze financial data.
tensile	 adj. relating to the ability of a material or structure to stretch or bend without breaking or losing its shape; having great strength or flexibility under tension synonym: flexible, pliable, ductile
	(1) tensile deformation, (2) tensile properties
	The engineer tested the tensile strength of the metal to determine its durability.
tug	<i>v.</i> to pull something quickly and hard, often several times <i>synonym</i> : draw, jerk, pull
	(1) tug a rope, (2) tug at his hand
	This movie tugs at everyone's heartstrings.
extensible	 adj. capable of being extended, stretched, or expanded; able to be enlarged, broadened, or lengthened synonym: flexible, expandable, adaptable
	(1) extensible markup language, (2) extensible framework
	The software has an extensible design, allowing for easy customization and future updates.
trampoline	<i>n.</i> a strong fabric sheet attached by springs to a frame, used for bouncing on
	synonym: rebounder, bouncer, springboard
	(1) trampoline park, (2) trampoline jump
	I love jumping on the trampoline in my backyard.
intercept	 v. to stop and catch someone or something to prevent them from continuing to a destination synonym: ambush, block, prevent
	(1) intercept an enemy force, (2) intercept X rays
	It is illegal to intercept police radio.
unexplored	adj. not yet examined, investigated, or studied; lacking in knowledge or information; unknown or undiscovered

	synonym: uncharted, undiscovered, untapped
	(1) unexplored ideas, (2) unexplored cave
	There are many unexplored regions of the ocean that scientists hope to study soon.
hypothesize	 v. to form or present a theory or explanation without sufficient evidence; to speculate synonym: speculate, theorize, conjecture
	(1) hypothesize as to outcomes, (2) hypothesize what could have happened
	Scientists hypothesize that the new fish species evolved to survive in deep-sea environments.
phylogenetics	 n. the study of the evolutionary relationships and history of organisms based on comparisons of their genetic sequences and other biological characteristics synonym: evolutionary genetics, cladistics
	(1) biogeographical phylogenetics , (2) phylogenetics tree Her research focuses on molecular phylogenetics , which uses gene sequences to study evolutionary relationships.
spit	<i>v.</i> to eject saliva or other liquid from the mouth <i>synonym</i> : expectorate, saliva, spew
	(1) spit a bullet, (2) spit a mouthful of saliva
	She tried to spit out the gum that she had been chewing.
lurk	 v. to wait somewhere secretly, especially because you are about to attack someone or do something bad or illegal synonym: hide, creep, stalk
	(1) lurked behind the words, (2) lurk in the darkness
	In the city, the risk of traffic accidents lurks at every corner.
immobilize	 v. to render someone or something unable to move or function normally; to restrain, inhibit, or stop synonym: incapacitate, paralyze, disable
	(1) immobilize the city, (2) immobilize our opponent

	The paramedics had to immobilize the accident victim to prevent further injury during transport to the hospital.
venom	 n. a toxic substance produced by an animal, typically a snake or insect, and injected into prey or an enemy by biting or stinging synonym: poison, toxin, hating
	(1) the venom of a lizard, (2) injected venom
	The snake's venom is highly toxic and can be fatal to humans.
domesticate	 v. to take control of animals or plants to provide food, power, or company synonym: tame, naturalize, cultivate
	(1) easy to domesticate , (2) domesticate the plant
	We domesticate cows to gain milk and meat.
silkworm	 n. the larva of a moth of the Bombyx genus that spins a cocoon of silk to encase itself while it transforms into a pupa; the silk fibers can be harvested and used to make fabric, such as silk synonym: silk spinner
	(1) silkworm larvae, (2) silkworm breeding
	The silkworm's cocoon contains the silk fibers used to make luxurious fabrics.
surpass	 v. to be or do better than someone or something; to excel or go beyond the limits or standards of something synonym: excel, outdo, outperform
	(1) surpass imagination, (2) surpass \$20 billion in sales
	The athlete's record-breaking performance surpassed all expectations.
biomimetics	<i>n.</i> the study of natural systems and structures to create new technologies or improve existing ones
	(1) biomimetics research, (2) biomimetics technology
	The aircraft's design was inspired by biomimetics principles,

	which allowed for improved aerodynamics and reduced fuel consumption.
elicit	v. to obtain information or a reaction from someone, usually with difficulty
	synonym: bring out, obtain, evoke
	(1) elicit a confession, (2) elicit a solution
	Have you elicited a response from them yet?
biomedical	<i>adj.</i> relating to the application of the natural sciences, especially biology, and physiology, to clinical medicine and healthcare
	synonym: medical, clinical, health-related
	(1) biomedical assay, (2) cutting-edge biomedical
	Biomedical engineering focuses on developing new medical technologies and innovations to improve patient health outcomes.
tendon	<i>n.</i> a strong, fibrous cord of tissue that connects muscle to bone
	synonym: tissue, sinew, ligament
	(1) tendon grafting, (2) tendon collagen
	Tendon injuries are common among athletes.
regrow	 v. to grow back or regenerate after being cut or removed, such as cells or tissues in the body, or plants and vegetation
	synonym: regenerate
	(1) regrow hair, (2) regrow vegetation
	Lizards can regrow their tails if they are cut off.
scaffold	 n. a temporary platform or structure used to support workers and materials during construction or maintenance work
	synonym: platform, staging, framework
	(1) scaffold construction, (2) go to the scaffold
	The construction workers set up the scaffold to reach the top

of the building.

ballistic

adj. relating to or resembling the motion or behavior of a projectile in flight; intensely angry or out of control synonym: furious, explosive, enraged

(1) ballistic missile, (2) ballistic vest

The boss went **ballistic** when he found out we missed the deadline.

Session 2: Spelling

1.	uneed ideas	adj.	not yet examined, investigated, or studied; lacking in knowledge or information; unknown or undiscovered
2.	long-tile	n.	a period or interval of time, particularly one used as a standard for measuring or comparing other periods of time; a reference point or benchmark for the duration or length of a particular event or process
3.	inpt X rays	v.	to stop and catch someone or something to prevent them from continuing to a destination
4.	uneed cave	adj.	not yet examined, investigated, or studied; lacking in knowledge or information; unknown or undiscovered
5.	abdominal s_c	n.	a bag or pouch, typically made of fabric or leather, used to hold something valuable or important; a structure resembling a bag in an animal or plant
6.	s_c contents	n.	a bag or pouch, typically made of fabric or leather, used to hold something valuable or important; a structure resembling a bag in an animal or plant
7.	a boy on exports	n.	a reward offered for capturing or killing someone or for accomplishing a specific task
8.	low-r_v engine	n.	a measure of the rate at which an engine or motor rotates, often expressed in revolutions per minute (RPM); (verb) to increase the number of rotations per minute

ANSWERS: 1. unexplored, 2. timescale, 3. intercept, 4. unexplored, 5. sac, 6. sac, 7. bounty, 8. rev

9.	elt a solution	v.	to obtain information or a reaction from someone, usually with difficulty
10.	pheine hydroxylase	n.	an essential amino acid that plays a crucial role in protein synthesis and various other physiological processes in the human body but can be dangerous in excessive amounts for people with phenylketonuria (PKU)
11.	det a feeling of isolation	v.	to illustrate someone or something in a photograph
12.	sirm larvae	n.	the larva of a moth of the Bombyx genus that spins a cocoon of silk to encase itself while it transforms into a pupa; the silk fibers can be harvested and used to make fabric, such as silk
13.	ten collagen	n.	a strong, fibrous cord of tissue that connects muscle to bone
14.	abbion of the full name	n.	a shortened form of a word or phrase used to represent the whole, typically for ease of use
15.	business divion	n.	the act of expanding a business or portfolio by adding new products, services, or investments to reduce risk and increase profitability
16.	pre sanctuary	n.	any mammal of the order Primates, which includes monkeys, apes, and humans
17.	go to the scld	n.	a temporary platform or structure used to support workers and materials during construction or maintenance work

ANSWERS: 9. elicit, 10. phenylalanine, 11. depict, 12. silkworm, 13. tendon, 14. abbreviation, 15. diversification, 16. primate, 17. scaffold

18. trant skin	adj.	allowing light to pass through but scattering it so that objects behind cannot be seen clearly; partially transparent
19. r_v up the crowd	n.	a measure of the rate at which an engine or motor rotates, often expressed in revolutions per minute (RPM); (verb) to increase the number of rotations per minute
20. lipstick sme	n.	a blurry or dirty mark or stain left by rubbing or smearing something; also, a bundle of material, such as sage or incense, that is burned to produce smoke for purification or ritual purposes
21. drt formation	n.	a small drop of liquid
22. sus imagination	ν.	to be or do better than someone or something; to excel or go beyond the limits or standards of something
23. bee brows	n.	an insect having a hard shell-like back covering its wings
24. t_g at his hand	v.	to pull something quickly and hard, often several times
25. wee on a loom	v.	to make cloth, a carpet, a basket, etc., by repeatedly crossing a single thread through two sets of long threads at a right angle to them
26. divce angle	n.	the act or process of separating and moving in different directions; a difference or variance between two or more things or ideas; a deviation from a common or shared path or goal

ANSWERS: 18. translucent, 19. rev, 20. smudge, 21. droplet, 22. surpass, 23. beetle, 24. tug, 25. weave, 26. divergence

27. opne occasion	adj.	suitable or happening at a time that is suitable or convenient for a particular purpose
28. biocs research	n.	the study of natural systems and structures to create new technologies or improve existing ones
29. ale plant	adj.	relating to or characteristic of high mountains, especially the Alps; of or relating to cold, snowy, or rugged terrain
30. cash boy	n.	a reward offered for capturing or killing someone or for accomplishing a specific task
31. drt size	n.	a small drop of liquid
32. immze our opponent	v.	to render someone or something unable to move or function normally; to restrain, inhibit, or stop
33. Ik in the darkness	v.	to wait somewhere secretly, especially because you are about to attack someone or do something bad or illegal
34. biocs technology	n.	the study of natural systems and structures to create new technologies or improve existing ones
35. acs of pancreas	n.	a small, rounded sac or cavity found in the body, particularly in glands and organs, such as the respiratory system or the exocrine glands, where it is involved in the production and secretion of substances

ANSWERS: 27. opportune, 28. biomimetics, 29. alpine, 30. bounty, 31. droplet, 32. immobilize, 33. lurk, 34. biomimetics, 35. acinus

36. hypze what could have happened	v.	to form or present a theory or explanation without sufficient evidence; to speculate
37. realistic tile	n.	a period or interval of time, particularly one used as a standard for measuring or comparing other periods of time; a reference point or benchmark for the duration or length of a particular event or process
38. phyics tree	n.	the study of the evolutionary relationships and history of organisms based on comparisons of their genetic sequences and other biological characteristics
39. rew hair	v.	to grow back or regenerate after being cut or removed, such as cells or tissues in the body, or plants and vegetation
40. die from tradition	v.	to move or extend in different directions from a common point; to branch off or deviate from a path or course
41. ama of the fallopian tube	n.	a small, rounded, or flask-shaped container or cavity in the body, often used to refer to specific structures or parts of the anatomy, such as the dilated portion of a fallopian tube or a structure in the digestive system
42. tee properties	adj.	relating to the ability of a material or structure to stretch or bend without breaking or losing its shape; having great strength or flexibility under tension

ANSWERS: 36. hypothesize, 37. timescale, 38. phylogenetics, 39. regrow, 40. diverge, 41. ampulla, 42. tensile

43. baic missile	adj.	relating to or resembling the motion or behavior of a projectile in flight; intensely angry or out of control
44. receptor see	n.	a hydrophilic amino acid that acts as a neurotransmitter and is found in many proteins
45. an opne remark	adj.	suitable or happening at a time that is suitable or convenient for a particular purpose
46. ale region	adj.	relating to or characteristic of high mountains, especially the Alps; of or relating to cold, snowy, or rugged terrain
47. gle supplement	n.	an amino acid, often represented by the symbol "G," that is an essential building block of proteins and is involved in various biological processes in living organisms
48. scld construction	n.	a temporary platform or structure used to support workers and materials during construction or maintenance work
49. Iked behind the words	v.	to wait somewhere secretly, especially because you are about to attack someone or do something bad or illegal
50. gle metabolism	n.	an amino acid, often represented by the symbol "G," that is an essential building block of proteins and is involved in various biological processes in living organisms
51. chiee behavior	n.	a small, very intelligent ape found in west and central Africa with black or brown fur

ANSWERS: 43. ballistic, 44. serine, 45. opportune, 46. alpine, 47. glycine, 48. scaffold, 49. lurk, 50. glycine, 51. chimpanzee

52.	ideological divce	n.	the act or process of separating and moving in different directions; a difference or variance between two or more things or ideas; a deviation from a common or shared path or goal
53.	baic vest	adj.	relating to or resembling the motion or behavior of a projectile in flight; intensely angry or out of control
54.	o_b of light	n.	a sphere or ball-shaped object, often referring to celestial bodies such as planets or stars
55.	cutting-edge bioal	adj.	relating to the application of the natural sciences, especially biology, and physiology, to clinical medicine and healthcare
56.	fint lamp	n.	a thin wire or thread, especially one used to produce light in an electric bulb
57.	biogeographical phyics	n.	the study of the evolutionary relationships and history of organisms based on comparisons of their genetic sequences and other biological characteristics
58.	bioal assay	adj.	relating to the application of the natural sciences, especially biology, and physiology, to clinical medicine and healthcare
59.	rew vegetation	v.	to grow back or regenerate after being cut or removed, such as cells or tissues in the body, or plants and vegetation
60.	open the spt	n.	a valve or faucet used to control the flow of liquid from a container or pipe

ANSWERS: 52. divergence, 53. ballistic, 54. orb, 55. biomedical, 56. filament, 57. phylogenetics, 58. biomedical, 59. regrow, 60. spigot

61.	gre with each other	v.	to make a strenuous effort to solve a problem; to engage in a close fight or conflict without weapons
62.	inpt an enemy force	v.	to stop and catch someone or something to prevent them from continuing to a destination
63.	alveolar acs	n.	a small, rounded sac or cavity found in the body, particularly in glands and organs, such as the respiratory system or the exocrine glands, where it is involved in the production and secretion of substances
64.	the magnce of classical music	n.	the quality or state of being extremely good, beautiful, or deserving to be admired
65.	sirm breeding	n.	the larva of a moth of the Bombyx genus that spins a cocoon of silk to encase itself while it transforms into a pupa; the silk fibers can be harvested and used to make fabric, such as silk
66.	a bee larva	n.	an insect having a hard shell-like back covering its wings
67.	st a bullet	ν.	to eject saliva or other liquid from the mouth
68.	immze the city	v.	to render someone or something unable to move or function normally; to restrain, inhibit, or stop
69.	incomparable magnce	n.	the quality or state of being extremely good, beautiful, or deserving to be admired

ANSWERS: 61. grapple, 62. intercept, 63. acinus, 64. magnificence, 65. silkworm, 66. beetle, 67. spit, 68. immobilize, 69. magnificence

70. outsh behavior	adj.	bizarre, strange, or unconventional in
		appearance, behavior, or thought, often in a way that is seen as foreign or exotic; unusual or strikingly different from what is expected or normal
71. ten grafting	n.	a strong, fibrous cord of tissue that connects muscle to bone
72. gre with problem	v.	to make a strenuous effort to solve a problem; to engage in a close fight or conflict without weapons
73. hypze as to outcomes	v.	to form or present a theory or explanation without sufficient evidence; to speculate
74. anor language	n.	a person from whom one is descended; a forefather
75. dit the data	v.	to cut into pieces to study the structure of something in detail
76. wee a story	v.	to make cloth, a carpet, a basket, etc., by repeatedly crossing a single thread through two sets of long threads at a right angle to them
77. sus \$20 billion in sales	v.	to be or do better than someone or something; to excel or go beyond the limits or standards of something
78. die from the main topic	v.	to move or extend in different directions from a common point; to branch off or deviate from a path or course
79. industry qus	n.	quantitative analysts or individuals who specialize in using quantitative methods, including mathematical and statistical modeling, in analyzing financial markets and making investment decisions

ANSWERS: 70. outlandish, 71. tendon, 72. grapple, 73. hypothesize, 74. ancestor, 75. dissect, 76. weave, 77. surpass, 78. diverge, 79. quants

80.	extle framework	adj.	capable of being extended, stretched, or expanded; able to be enlarged, broadened, or lengthened
81.	ama of vater	n.	a small, rounded, or flask-shaped container or cavity in the body, often used to refer to specific structures or parts of the anatomy, such as the dilated portion of a fallopian tube or a structure in the digestive system
82.	st a mouthful of saliva	v.	to eject saliva or other liquid from the mouth
83.	carbon fint	n.	a thin wire or thread, especially one used to produce light in an electric bulb
84.	crystal o_b	n.	a sphere or ball-shaped object, often referring to celestial bodies such as planets or stars
85.	trane jump	n.	a strong fabric sheet attached by springs to a frame, used for bouncing on
86.	dit a personality	v.	to cut into pieces to study the structure of something in detail
87.	pre species	n.	any mammal of the order Primates, which includes monkeys, apes, and humans
88.	det a scene	v.	to illustrate someone or something in a photograph
89.	divion of products	n.	the act of expanding a business or portfolio by adding new products, services, or investments to reduce risk and increase profitability

ANSWERS: 80. extensible, 81. ampulla, 82. spit, 83. filament, 84. orb, 85. trampoline, 86. dissect, 87. primate, 88. depict, 89. diversification

90.	the team of qus	n.	quantitative analysts or individuals who specialize in using quantitative methods, including mathematical and statistical modeling, in analyzing financial markets and making investment decisions
91.	shut off the spt	n.	a valve or faucet used to control the flow of liquid from a container or pipe
92.	the vem of a lizard	n.	a toxic substance produced by an animal, typically a snake or insect, and injected into prey or an enemy by biting or stinging
93.	elt a confession	v.	to obtain information or a reaction from someone, usually with difficulty
94.	trant glass	adj.	allowing light to pass through but scattering it so that objects behind cannot be seen clearly; partially transparent
95.	bacterial flum	n.	(plural, flagella) a long, thin, whip-like structure that some cells use for movement
96.	trane park	n.	a strong fabric sheet attached by springs to a frame, used for bouncing on
97.	see protease	n.	a hydrophilic amino acid that acts as a neurotransmitter and is found in many proteins
98.	pheine deficiency	n.	an essential amino acid that plays a crucial role in protein synthesis and various other physiological processes in the human body but can be dangerous in excessive amounts for people with phenylketonuria (PKU)

ANSWERS: 90. quants, 91. spigot, 92. venom, 93. elicit, 94. translucent, 95. flagellum, 96. trampoline, 97. serine, 98. phenylalanine

99. flum structure	n.	(plural, flagella) a long, thin, whip-like structure that some cells use for movement
100. outsh proposal	adj.	bizarre, strange, or unconventional in appearance, behavior, or thought, often in a way that is seen as foreign or exotic; unusual or strikingly different from what is expected or normal
101. injected vem	n.	a toxic substance produced by an animal, typically a snake or insect, and injected into prey or an enemy by biting or stinging

- 6. Each _____ in the salivary gland produces and secretes saliva.
- *n*. a small, rounded sac or cavity found in the body, particularly in glands and organs, such as the respiratory system or the exocrine glands, where it is involved in the production and secretion of substances
- 7. The scientist ______ the frog to study its internal organs.
- *v*. to cut into pieces to study the structure of something in detail

ANSWERS: 1. Biomedical, 2. immobilize, 3. ballistic, 4. tugs, 5. sac, 6. acinus, 7. dissected

- 8. We went on an exhilarating _____ adventure, climbing steep mountain slopes and glaciers.
- *adj.* relating to or characteristic of high mountains, especially the Alps; of or relating to cold, snowy, or rugged terrain
- 9. The ______ cocoon contains the silk fibers used to make luxurious fabrics.
- *n*. the larva of a moth of the Bombyx genus that spins a cocoon of silk to encase itself while it transforms into a pupa; the silk fibers can be harvested and used to make fabric, such as silk
- 10. The construction workers set up the _____ to reach the top of the building.
- *n.* a temporary platform or structure used to support workers and materials during construction or maintenance work
- 11. The protein contained a high ______ content, making it vital for specific metabolic reactions.
- *n.* an amino acid, often represented by the symbol "G," that is an essential building block of proteins and is involved in various biological processes in living organisms
- 12. His son had accurately _____ the bloom.
- *v.* to illustrate someone or something in a photograph
- 13. We _____ cows to gain milk and meat.
- *v.* to take control of animals or plants to provide food, power, or company
- 14. She tried to _____ out the gum that she had been chewing.
 - v. to eject saliva or other liquid from the mouth
- 15. The ______ in the light bulb burned out, and now it's not working.
- *n.* a thin wire or thread, especially one used to produce light in an electric bulb

ANSWERS: 8. alpine, 9. silkworm's, 10. scaffold, 11. glycine, 12. depicted, 13. domesticate, 14. spit, 15. filament

- 16. As tectonic plates ______ new oceanic crust is formed along mid-ocean ridges.
- *v.* to move or extend in different directions from a common point; to branch off or deviate from a path or course
- 17. My remote ______ immigrated to the United States from Ireland in the 1800s.
- *n.* a person from whom one is descended; a forefather
- 18. A single ______ of water can reflect the entire world upside down.
- *n.* a small drop of liquid
- 19. The sunlight shone through the _____ curtains, casting a warm glow in the room.
- *adj.* allowing light to pass through but scattering it so that objects behind cannot be seen clearly; partially transparent
- 20. She accidentally left a _____ on the newly painted wall.
- *n.* a blurry or dirty mark or stain left by rubbing or smearing something; also, a bundle of material, such as sage or incense, that is burned to produce smoke for purification or ritual purposes
- 21. The girl _____ a garland for her friend.
- *v.* to make cloth, a carpet, a basket, etc., by repeatedly crossing a single thread through two sets of long threads at a right angle to them
- 22. The athlete's record-breaking performance ______ all expectations.
 - *v.* to be or do better than someone or something; to excel or go beyond the limits or standards of something
- 23. In ancient civilizations, the scarab _____ was worshiped as a sacred creature.
- *n.* an insect having a hard shell-like back covering its wings

ANSWERS: 16. diverge, 17. ancestor, 18. droplet, 19. translucent, 20. smudge, 21. weaves, 22. surpassed, 23. beetle

- 24. He stepped on the gas pedal, and the engine released a loud ____.
- *n.* a measure of the rate at which an engine or motor rotates, often expressed in revolutions per minute (RPM); (verb) to increase the number of rotations per minute
- 25. Many scientists study _____ behavior and intelligence.
- *n.* any mammal of the order Primates, which includes monkeys, apes, and humans
- 26. There are many ______ regions of the ocean that scientists hope to study soon.
- *adj.* not yet examined, investigated, or studied; lacking in knowledge or information; unknown or undiscovered
- 27. The snake's _____ is highly toxic and can be fatal to humans.
- *n*. a toxic substance produced by an animal, typically a snake or insect, and injected into prey or an enemy by biting or stinging
- 28. The _____ hunter was hired to capture the notorious criminal and bring him to justice.
- *n.* a reward offered for capturing or killing someone or for accomplishing a specific task
- 29. He needed to ______ with structural reforms to improve the company's revenue.
- *v.* to make a strenuous effort to solve a problem; to engage in a close fight or conflict without weapons
- 30. The high ______ levels in the blood were an indicator of liver disease.
- *n.* a hydrophilic amino acid that acts as a neurotransmitter and is found in many proteins

ANSWERS: 24. rev, 25. primate, 26. unexplored, 27. venom, 28. bounty, 29. grapple, 30. serine

- 31. The engineer tested the ______ strength of the metal to determine its durability.
- *adj.* relating to the ability of a material or structure to stretch or bend without breaking or losing its shape; having great strength or flexibility under tension
- 32. Many financial ______ work in investment banks, using complex mathematical models to analyze financial data.
- *n*. quantitative analysts or individuals who specialize in using quantitative methods, including mathematical and statistical modeling, in analyzing financial markets and making investment decisions
- 33. In the medical field, service ______ refers to medical procedures, diagnoses, and medications.
- *n*. a shortened form of a word or phrase used to represent the whole, typically for ease of use
- 34. I love jumping on the _____ in my backyard.
- *n.* a strong fabric sheet attached by springs to a frame, used for bouncing on
- 35. Many zoos have ______ exhibits, allowing visitors to observe these intelligent primates up close.
- *n.* a small, very intelligent ape found in west and central Africa with black or brown fur
- 36. Certain soft drinks and sugar-free products have warning label about their _____ content.
- *n.* an essential amino acid that plays a crucial role in protein synthesis and various other physiological processes in the human body but can be dangerous in excessive amounts for people with phenylketonuria (PKU)
- 37. The software has an ______ design, allowing for easy customization and future updates.
- *adj.* capable of being extended, stretched, or expanded; able to be enlarged, broadened, or lengthened

ANSWERS: 31. tensile, 32. quants, 33. abbreviation, 34. trampoline, 35. chimpanzee, 36. phenylalanine, 37. extensible

- 38. In the city, the risk of traffic accidents _____ at every corner.
 - v. to wait somewhere secretly, especially because you are about to attack someone or do something bad or illegal
- 39. Scientists ______ that the new fish species evolved to survive in deep-sea environments.
- *v.* to form or present a theory or explanation without sufficient evidence; to speculate
- 40. The aircraft's design was inspired by ______ principles, which allowed for improved aerodynamics and reduced fuel consumption.
 - *n.* the study of natural systems and structures to create new technologies or improve existing ones
- 41. The planet Venus appeared as a bright ____ in the sky during the night.
 - *n.* a sphere or ball-shaped object, often referring to celestial bodies such as planets or stars
- 42. Her research focuses on molecular ______ which uses gene sequences to study evolutionary relationships.
- *n.* the study of the evolutionary relationships and history of organisms based on comparisons of their genetic sequences and other biological characteristics
- 43. Lizards can _____ their tails if they are cut off.
- v. to grow back or regenerate after being cut or removed, such as cells or tissues in the body, or plants and vegetation
- 44. The phone rang at the most ______ time.
- *adj.* suitable or happening at a time that is suitable or convenient for a particular purpose

ANSWERS: 38. lurks, 39. hypothesize, 40. biomimetics, 41. orb, 42. phylogenetics, 43. regrow, 44. opportune

- 45. The ______ on the outdoor faucet was leaking and needed to be fixed.
- *n.* a valve or faucet used to control the flow of liquid from a container or pipe
- 46. The physician carefully inserted a catheter into the patient's _____ to drain excess fluid.
- *n.* a small, rounded, or flask-shaped container or cavity in the body, often used to refer to specific structures or parts of the anatomy, such as the dilated portion of a fallopian tube or a structure in the digestive system
- 47. The ______ outfit drew the attention of everyone in the room.
- *adj.* bizarre, strange, or unconventional in appearance, behavior, or thought, often in a way that is seen as foreign or exotic; unusual or strikingly different from what is expected or normal
- 48. The ______ in opinions among the team members led to a delay in completing the project.
- *n.* the act or process of separating and moving in different directions; a difference or variance between two or more things or ideas; a deviation from a common or shared path or goal
- 49. _____ injuries are common among athletes.
- *n.* a strong, fibrous cord of tissue that connects muscle to bone
- 50. The ______ for completing the construction project is three years.
 - *n.* a period or interval of time, particularly one used as a standard for measuring or comparing other periods of time; a reference point or benchmark for the duration or length of a particular event or process
- 51. It is illegal to _____ police radio.
 - *v.* to stop and catch someone or something to prevent them from continuing to a destination

ANSWERS: 45. spigot, 46. ampulla, 47. outlandish, 48. divergence, 49. Tendon, 50. timescale, 51. intercept

- 52. The company's ______ strategy helped them weather the economic downturn.
 - *n.* the act of expanding a business or portfolio by adding new products, services, or investments to reduce risk and increase profitability
- 53. The ______ of the sperm cells help it to move towards the egg.
- *n*. (plural, flagella) a long, thin, whip-like structure that some cells use for movement
- 54. The ______ of the palace was breathtaking.
 - *n.* the quality or state of being extremely good, beautiful, or deserving to be admired
- 55. Have you ______ a response from them yet?
- v. to obtain information or a reaction from someone, usually with difficulty

ANSWERS: 52. diversification, 53. flagellum, 54. magnificence, 55. elicited
